NOTES:

1. Use these rates to calculate in-kind contributions, unless you can demonstrate that an alternative rate is valid for your circumstances (bids, quotes, local standard rates).
2. Spray rig and vehicle rates were adapted from figures obtained from the Idaho Dept of Lands.
3. Worker rates were determined using Idaho Department of Labor averages as a guide, as well as county averages.
4. Other rates were determined using rental or cost quotations as a guide.
5. These standards were developed using best available information. Please feel free to provide useful comments or suggestions for making improvements.

¹ Updates to rates made by Matt Voile, ISDA, per research and discussion with Tony Voorhees, Fiscal Division, ISDA, in October 2005.
